Professional Summary

Data Analyst with a Master's Degree in Data Science and Information and an Industrial Engineering background, with 10+ years of experience in IT operations, process management, data analysis, KPI development, operational reporting, and continuous improvement.

Experienced in analyzing operational information, defining and monitoring KPIs and SLAs, developing Power BI dashboards and executive reports, and translating business requirements into actionable insights for management decision-making.

Proficient in SQL, Power BI, Tableau, Python, Pandas, Excel, and R, with strong experience in data validation, reporting automation, process analysis, and stakeholder collaboration.

Professional Experience

Data Analyst – IT Metrics Team | Softtek

October 2024 – Present

- Analyze operational datasets using SQL, Python, Pandas, NumPy, and Excel to identify trends, performance gaps, and actionable insights.

- Develop and maintain Power BI dashboards, KPIs, and operational reports to support management decision-making and performance monitoring.
- Develop SQL queries and data-processing workflows to extract, transform, validate, and prepare operational information for analysis.
- Automate recurring data-processing, validation, and reporting activities using Python and Excel, improving reporting efficiency and consistency.
- Collaborate with stakeholders to translate business requirements into KPIs, dashboards, reports, and analytical solutions.
- Support the definition and monitoring of performance indicators used to evaluate operational results and service performance.

Process Quality Leader | Softtek

August 2019 – September 2024

- Developed and monitored operational KPIs, SLAs, Power BI dashboards, and executive reports to evaluate process performance and service delivery.
- Analyzed operational data to identify trends, deviations, performance gaps, and opportunities for continuous improvement.
- Consolidated and validated information from different operational sources to ensure data consistency and reliability for management reporting.
- Automated recurring data extraction, transformation, validation, and reporting activities using Python and Excel.
- Prepared management-level reports and presentations communicating operational performance, trends, risks, and improvement opportunities.
- Collaborated with multidisciplinary and international stakeholders to define reporting requirements, metrics, KPIs, and analytical needs.
- Supported process improvement initiatives through data-driven analysis, performance monitoring, and identification of operational opportunities.

Quality Analyst Compliance | Softtek

- Developed Power BI dashboards, KPIs, and management reports for operational and compliance monitoring.
- Performed data validation, consistency checks, and reporting controls to ensure reliable and accurate information.

- Managed structured operational information supporting reporting, analysis, performance monitoring, and management decision-making.
 - Monitored process indicators and supported the identification of deviations and improvement opportunities.
 - Supported ISO/IEC 20000 compliance, internal controls, audit readiness, and continuous improvement initiatives.
-

Featured Projects

NLP Author Attribution in Political Discourse

Master's Thesis • INFOTEC • 2026

Developed an end-to-end NLP pipeline to process and classify 928,759 Spanish-language tweets across 47 author classes using Python and data science techniques.

- Processed and transformed 928K+ records using Python, Pandas, and NumPy.
 - Evaluated multiple text embeddings and developed classification models using MLP and LinearSVC.
 - Applied UMAP for dimensionality reduction and exploratory analysis of high-dimensional data.
 - Achieved *71.84% accuracy and 0.70 Macro F1* using RoBERTa + MLP, with class-level F1 ranging from *0.95 for LillyTellez* to *0.40 for EdySmol*.
 - Evaluated model performance using accuracy, precision, recall, Macro F1, and class-level metrics.
-

Technical Skills

- *BI & Visualization:* Power BI • Tableau • Dashboard Development • KPI & SLA Development • Executive Reporting • Data Visualization
- *Data:* SQL • Data Analysis • Data Transformation • Data Validation • Data Quality • Data Modeling Fundamentals
- *Programming:* Python • Pandas • NumPy • R • Excel
- *Analytics:* Exploratory Data Analysis • Trend Analysis • Performance Analysis • Anomaly Detection • Forecasting

- *Process & Business:* KPI Monitoring • SLA Analysis • Process Improvement • Operational Reporting • Stakeholder Management
 - *Tools:* Jupyter • Git • GitHub
-

Education

INFOTEC

Master's Degree in Data Science and Information (Thesis under review) [Credential](#)

Tecnológico Nacional de México

Bachelor's Degree in Industrial Engineering
