Professional Summary

Data Analyst with a Master's Degree in Data Science and Information and an Industrial Engineering background, with experience in Business Intelligence, data visualization, KPI development, operational reporting, and data quality.

Proficient in Tableau, Power BI, SQL, Python, Pandas, Excel, and R, developing interactive dashboards, reports, data-processing workflows, and analytical solutions to support business decision-making.

Strong experience translating business requirements into KPIs, dashboards, reports, and actionable insights, combining data analysis with extensive process, operations, and ITSM governance knowledge.

Professional Experience

Data Analyst I – IT Metrics Team | Softtek

October 2024 – Present

- Built Power BI and Python dashboards monitoring operational KPIs, business performance and SLAs.
- Partnered with business stakeholders translating business requirements into governance-focused analytical solutions supporting strategic decisions.

- Developed predictive forecasting models using Prophet and XGBoost supporting infrastructure planning.
- Developed anomaly detection solutions combining descriptive analytics and machine learning to identify operational outliers and emerging risks for Service Desk projects.

Process Quality Leader | Softtek

August 2019 – September 2024

- Developed and monitored KPIs, operational indicators, dashboards, and executive reports supporting account SLAs and ITSM governance.
- Analyzed operational data to identify trends, deviations, performance gaps, and opportunities for improvement.
- Built interactive Tableau dashboards monitoring compliance metrics, KPIs, operational performance, and customer satisfaction.
- Performed data quality checks and consistency analysis to improve the reliability of operational information.
- Collaborated with multidisciplinary and international teams to define reporting requirements, metrics, and analytical needs.

Quality Analyst Compliance | Softtek

September 2015 - August 2019

- Developed Power BI dashboards, KPIs, and management reports for operational and compliance monitoring.
- Performed data validation, consistency checks, and reporting controls to ensure reliable information.
- Managed structured operational information supporting reporting, analysis, and performance monitoring.
- Supported ISO/IEC 20000 compliance, internal controls, and audit readiness.

Featured Projects

Pedestrian & Cyclist Accidents — Tableau

Tableau • SQL • SQLite • Python • 2019 CDMX Data

Developed an interactive Tableau dashboard to analyze pedestrian and cyclist accidents in Mexico City.

- Built interactive visualizations including an accident-location map, hour × weekday heatmap, calendar analysis, borough/month filters, and pedestrian-vs-cyclist comparison.
- Prepared and standardized source data using SQLite and SQL, combining cyclist and pedestrian datasets into a unified analytical table.
- Used Python Pandas, GeoPandas, and Shapely for data cleaning and geospatial validation.
- [Tableau Public](#) • [GitHub](#)

NLP Author Attribution in Political Discourse

Master's Thesis • INFOTEC • 2026

Developed an end-to-end NLP pipeline to process and classify 928,759 Spanish-language tweets across 47 author classes using Python and data science techniques.

- Processed 928K+ records using Python, Pandas, and NumPy.
- Evaluated multiple text embeddings and classification models using MLP and LinearSVC.
- Applied UMAP for dimensionality reduction and exploratory analysis of high-dimensional data.
- Achieved *71.84% accuracy and 0.70 Macro F1* using RoBERTa + MLP.

Technical Skills

- *BI & Visualization:* Tableau • Power BI • Dashboard Development • Data Storytelling • KPI Development • Data Visualization
- *Data:* SQL • Data Analysis • Data Transformation • Data Validation • Data Quality • Data Modeling Fundamentals
- *Programming:* Python • Pandas • NumPy • R • Excel
- *Analytics:* Exploratory Data Analysis • Trend Analysis • Anomaly Detection • Forecasting

- *Tools:* SQLite • Jupyter • Git • GitHub
-

Education

INFOTEC

Master's Degree in Data Science and Information (Thesis under review) [Credential](#)

Tecnológico Nacional de México

Bachelor's Degree in Industrial Engineering

Certifications
