Professional Summary

Data Analyst with **10+ years of professional experience in IT operations, process management, and performance analysis**, progressively incorporating data analytics and business intelligence into professional roles to solve operational and business problems.

Hands-on experience with **Excel, Power Query, Power BI, R, Python, and SQL**, progressively incorporating these technologies into reporting, data transformation, analysis, KPI development, dashboarding, data quality validation, and process automation.

Experience developing **interactive dashboards and analytical solutions** using Power BI, Plotly, ggplot2, Highcharter (Highcharts), and echarts4r (Apache ECharts), supporting operational performance monitoring and management decision-making.

Currently completing a **Master's Degree in Data Science**, applying statistical and machine learning techniques to business intelligence, operational analytics, and large-scale data analysis.

Professional Experience

Data Analyst – IT Metrics Team | Softtek

October 2024 – Present

Key Achievements

- Analyzed operational datasets using **Python, SQL, and Excel** to generate KPIs, performance metrics, and analytical insights.
- Developed **Power BI dashboards and reporting solutions** for operational monitoring and performance analysis.
- Automated recurring reporting and data-processing tasks using **Python**, improving the efficiency and consistency of analytical workflows.
- Performed exploratory analysis, anomaly detection, and **data quality validation** to identify inconsistencies and support reliable reporting.
- Developed forecasting models using **Prophet, ARIMA, Holt-Winters, and XGBoost** to support operational planning and decision-making.

Process Quality Leader | Softtek

August 2019 – September 2024

Key Achievements

- Generated **KPIs, operational indicators, and executive reports** to support management decision-making and performance monitoring.
- Processed operational datasets for performance analysis, trend identification, and continuous improvement.
- Developed **Power BI dashboards** for KPI and business performance monitoring across operational processes.
- Automated data extraction, transformation, and reporting activities using **Python and Excel**.
- Performed **data quality validation, consistency checks, and reporting reviews** while collaborating with multidisciplinary teams to improve analytical outputs.

Quality Analyst Compliance | Softtek

Key Achievements

- Developed **Power BI dashboards** for operational reporting and performance monitoring.

- Managed databases and structured information supporting operational and compliance analysis.
 - Generated analytical reports, KPIs, and indicators for management decision-making.
 - Conducted **data validation, quality reviews, and consistency checks** to support reliable reporting.
 - Supported **ISO/IEC 20000 compliance, internal controls, process documentation, and audit readiness**.
 - Collaborated with international teams across **Mexico, USA, Spain, India and Colombia**.
-

Featured Projects

NLP Author Attribution in Political Discourse

Master's Thesis • INFOTEC • 2026

Project Summary

Engineered a large-scale NLP system processing **928K tweets** from 47 Mexican politicians, achieving **63.5% accuracy** and **60% macro F1-score** using contextual BERT embeddings.

Key Achievements

- Processed **928,759 tweets** using a large-scale data processing and embedding pipeline.
- Generated **768-dimensional contextual representations** using BERT.
- Developed an MLP classifier with class weighting for imbalanced data.
- Applied **UMAP** for dimensionality reduction and exploratory analysis.
- Identified a relationship ($r^2 \approx 0.45$) between tweet volume and classification performance.

Tech Stack

PyTorch • Transformers • TensorFlow/Keras • Scikit-learn • UMAP • NumPy/Pandas • CUDA

Impact

Developed a reproducible data science pipeline covering **data processing, transformation, analysis, modeling, evaluation, and visualization** for large-scale Spanish text data.

Technical Skills

Data Analytics

Exploratory Data Analysis (EDA) • Data Cleaning • Data Transformation • Data Validation • Statistical Analysis • Statistical Reporting • KPI Development • Trend Analysis • Data Quality • Business Intelligence • Dashboard Development • KPI Reporting

Data & Process Governance

ISO/IEC 20000 • Internal Controls • Audit Readiness • Process Documentation • Data Quality

Programming & Analytics

Python • R • SQL • SQLite • Pandas • NumPy • Scikit-learn

Visualization & BI

Power BI • Tableau • Plotly • Matplotlib • ggplot2 • Highcharter (Highcharts) • echarts4r (Apache ECharts)

Education

INFOTEC

Master's Degree in Data Science and Information *(Currently Enrolled)* [Credential](#)

Tecnológico Nacional de México

Bachelor's Degree in Industrial Engineering

Certifications

Kaggle

- Kaggle – [Intro to SQL](#)
- Kaggle – [Intro to Machine Learning](#)
- Kaggle – [Intermediate Machine Learning](#)
- Kaggle – [Pandas](#)
- Kaggle – [Data Visualization](#)
- Kaggle – [Time Series](#)
- Kaggle – [Data Cleaning](#)
- Kaggle – [Feature Engineering](#)

Additional Certifications

- Udemy - [Mathematics and Statistics for Machine Learning](#)
 - Simplilearn - [Data Science with Python](#)
 - Simplilearn - [Data Science with R](#)
 - Softtek - [Interpretation of the Standard & Internal Auditor for ISO/IEC 20000](#)
 - Axelos - [ITIL v3 Foundation Certification](#)
-
