Professional Summary

Data Analyst with a **Master's Degree in Data Science and Information** and an Industrial Engineering background, with progressive experience transitioning from **IT process management and compliance into data analytics and Business Intelligence**.

Experienced in **SQL, Python, Pandas, NumPy, Excel, R, and Power BI**, developing KPIs, dashboards, operational reports, data validation processes, and automated data workflows.

Progressive analytical experience from **descriptive analysis and performance reporting to forecasting and predictive analytics**, combining business process knowledge and data science training to translate operational requirements into data-driven solutions.

Professional Experience

Data Analyst – IT Metrics Team | Softtek

October 2024 – Present

Key Achievements

- Analyzed operational datasets using **SQL, Python, Pandas, NumPy, and Excel** to develop KPIs, performance indicators, and actionable insights.
- Developed and maintained **Power BI dashboards and reports** for operational monitoring, performance analysis, and management decision-making.
- Developed **SQL queries and data-processing workflows** to extract, transform, validate, and prepare data for analysis and reporting.
- Automated recurring reporting and data-processing activities using **Python**, improving reporting consistency and reducing manual effort.
- Applied **exploratory analysis, data quality validation, anomaly detection, and forecasting techniques** to support operational planning and decision-making.
- Collaborated with stakeholders to translate **business requirements into KPIs, reports, dashboards, and analytical solutions**.

Process Quality Leader | Softtek

August 2019 – September 2024

Key Achievements

- Developed and monitored **KPIs, operational indicators, and executive reports** to support management decision-making.
- Analyzed operational data to identify **performance trends, deviations, and opportunities for process improvement**.
- Developed **Power BI dashboards** for KPI monitoring, operational performance, and management reporting.
- Automated recurring data extraction, transformation, and reporting activities using **Python and Excel**.
- Performed **data validation, quality checks, and consistency analysis** to improve the reliability of operational information.
- Collaborated with multidisciplinary and international teams to define **reporting requirements, indicators, and analytical needs**.

Quality Analyst Compliance | Softtek

Key Achievements

- Developed **Power BI dashboards and analytical reports** for operational and compliance monitoring.

- Generated **KPIs, indicators, and management reports** to support operational performance analysis.
 - Performed **data validation, quality reviews, consistency checks, and reporting controls**.
 - Managed structured operational information supporting **reporting, analysis, and decision-making**.
 - Supported **ISO/IEC 20000 compliance, internal controls, and audit readiness**.
-

Featured Projects

NLP Author Attribution in Political Discourse

Master's Thesis • INFOTEC • 2026

Developed an end-to-end NLP pipeline to process and classify **928,759 Spanish-language tweets across 47 author classes**, covering data preparation, representation, dimensionality reduction, classification, and model evaluation.

Key Achievements

- Processed and transformed **928K+ textual records** using **Python, Pandas, and NumPy**.
 - Evaluated contextual representations using **RoBERTuito, MexSmall, and SentenceTransformer**.
 - Developed and evaluated an **MLP classifier** and compared its performance with **LinearSVC**.
 - Achieved **71.84% accuracy and 0.70 Macro F1** with RoBERTuito + MLP.
 - Applied **UMAP** for dimensionality reduction and exploratory analysis of high-dimensional data.
 - Evaluated models using **accuracy, precision, recall, Macro F1, and class-level metrics**.
-

Technical Skills

- BI & Data: SQL • Power BI • Python • Pandas • Excel • R

- Analytics & ML: KPI Development • Data Analysis • Data Quality • Automation • Forecasting • Machine Learning
 - Tools: SQL • Tableau • Git • GitHub • Jupyter
-

Education

INFOTEC

Master's Degree in Data Science and Information (*Thesis under review*) [Credential](#)

Tecnológico Nacional de México

Bachelor's Degree in Industrial Engineering

Certifications

Kaggle
