Professional Summary

Technology professional with over a decade in IT, holding an Industrial Engineering background that complements a strong technical skillset in Python, R, SQL, and Power BI. Expertise spans compliance, reporting automation, KPI development, and interactive dashboards using Power BI, Plotly, ggplot2, Highcharter, and echarts4r. Currently pursuing a Master's in Data Science to deepen expertise in ML and statistical analysis for business intelligence.

Professional Experience

Data Analyst – IT Metrics Team | Softtek

October 2024 – Present

Key Achievements

- Analyzed operational datasets using **Python, SQL, and Excel** to generate KPIs and analytical insights.
- Developed **Power BI dashboards** for operational monitoring and performance analysis.
- Automated recurring reporting and data-processing tasks using **Python**.
- Performed exploratory analysis, anomaly detection, and data quality validation.

- Developed forecasting models using **Prophet, ARIMA, Holt-Winters, and XGBoost**.

Process Quality Leader | Softtek

August 2019 – September 2024

Key Achievements

- Generated **KPIs, operational indicators, and executive reports** for management decision-making.
- Processed operational datasets for performance analysis and continuous improvement.
- Developed **Power BI dashboards** for KPI and business performance monitoring.
- Automated data extraction and reporting using **Python and Excel**.
- Performed data quality validation and collaborated with multidisciplinary teams to improve analytical reporting.

Quality Analyst Compliance | Softtek

Key Achievements

- Developed **Power BI dashboards** for operational reporting and monitoring.
- Managed databases and structured information supporting operational and compliance analysis.
- Generated analytical reports and indicators for management decision-making.
- Conducted **data validation, quality reviews, and consistency checks**.
- Supported **ISO/IEC 20000 compliance, internal controls, process documentation, and audit readiness**.
- Collaborated with international teams across **Mexico, USA, Spain, India and Colombia**.

Featured Projects

NLP Author Attribution in Political Discourse

Master's Thesis • INFOTEC • 2026

Project Summary

Engineered a large-scale NLP system processing 928K tweets in Spanish from 47 political figures across Latin America and Spain, achieving 64.13% accuracy and 0.61 macro F1-score using contextual BERT embeddings. Evaluated three embedding models (MexSmall, RoBERTuito, SentenceTransformer) and two classifiers (MLP, SVM), demonstrating that regional linguistic specialization (MexSmall) significantly outperforms generalist models.

Key Achievements

- Processed 928,759 tweets in Spanish through a complete data pipeline covering preprocessing, embedding generation, and classification.
- Generated 768-dimensional contextual representations using three BERT-based models.
- Developed an MLP classifier (768-512-1024-512-256-47) with BatchNorm, Dropout, and class weighting for imbalanced data.
- Applied UMAP for dimensionality reduction, identifying a relationship ($r^2 \approx 0.45$) between tweet volume and classification performance.
- Built a reproducible, modular pipeline spanning data processing, transformation, modeling, evaluation, and visualization.

Tech Stack

PyTorch • Transformers • TensorFlow/Keras • Scikit-learn • UMAP • NumPy/Pandas

Impact

Provides a reproducible framework for authorship attribution in Spanish political discourse, with potential applications in disinformation mitigation, opinion verification, and discourse analysis across the Spanish-speaking world. The comparative evaluation of regional vs. generalist embedding models offers insights for future NLP research on Spanish-language social media data.

Technical Skills

Data Analytics

• EDA • Data Cleaning • Data Transformation • Data Validation • Statistical Analysis • KPI Development • Trend Analysis • Dashboard Development

Audit & Governance

- ISO/IEC 20000 • Internal Controls • Audit Readiness

Programming & BI Tools

- Python • SQL • SQLite • R • Power BI • Tableau
-

Education

INFOTEC

Master's Degree in Data Science and Information *(Currently Enrolled)* [Credential](#)

Tecnológico Nacional de México

Bachelor's Degree in Industrial Engineering

Certifications

Kaggle

[Intro to SQL](#) * [Intro to Machine Learning](#) * [Intermediate Machine Learning](#) * [Pandas](#) * [Data Visualization](#) * [Time Series](#) * [Data Cleaning](#) * [Feature Engineering](#)

Additional Certifications

- Udemy - [Mathematics and Statistics for Machine Learning](#)
 - Simplilearn - [Data Science with Python](#) & [Data Science with R](#)
 - Softtek - [Interpretation of the Standard & Internal Auditor for ISO/IEC 20000](#)
 - Axelos - [ITIL v3 Foundation Certification](#)
-

Languages

- Spanish — Native
- English — Intermediate (B1)
